

Choose The Perfect Stools

WHAT IS THE IDEAL HEIGHT FOR A STOOL? GENERALLY AVAILABLE IN 24, 30 OR 34 IN. (61, 76 AND 86 CM)

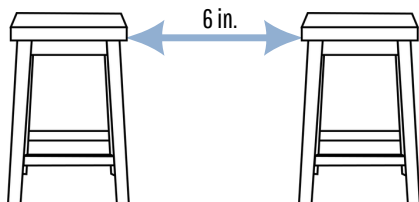

Ideal height for a stool = Height of the countertop or island - 10 to 12 in. (25 to 30 cm)

HOW MANY STOOLS?

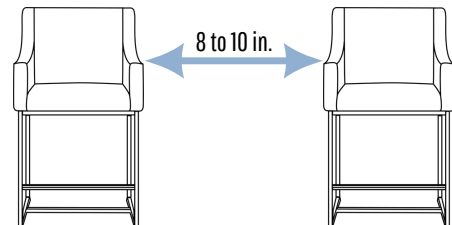

1

Leave 6 in. (15 cm) between seats if the stool measures 16 to 18 in. (40 to 45 cm) wide.

2

Leave 8 to 10 in. (20 to 25 cm) between seats if the stool is wider than 22 in. (45 cm) if it has arms or if it swivels.

3 TYPES OF STOOLS

No back

- Useful and unobtrusive
- Perfect for small spaces

Low back

- Visual interest and basic lumbar support
- Elegance without overpowering the space
- Usually more modern and urban

Full back

- Unparalleled comfort and possibility to complement dining room chairs
- Very interesting visual impact
